

**Facilities Description: Maintenance, Operations and Administration Center: 1000 Columbia Park Trail, Richland, WA 99352. 10.5 total acres, 1058 Columbia Park Trail 3.4 acres, 1060 Columbia Park Trail 1-½ acres, 1066 Columbia Park Trail 1-¾ acres and the balance in parking for employees and visitors. There are 219 parking spaces with transit adjacent to the site.**

**1. Maintenance Facility. This facility was renovated in 2011 with technical refinements continuing into 2012.**

- Heating, ventilation, and air conditioning systems (HVAC): All New
- Roof: New
- Structure (walls, floors, windows, and foundation):
- Electrical/lighting: Good
- Parking/driving surfaces: Pavement is in good condition.
- Pedestrian access: At grade sidewalks and doorway throughout as well as striping and designated pedestrian walkways at all crossings.
- Water/sewer: Excellent drainage system (bio swales). Inadequate restroom and staff lock space.
- Functional capacity (does the current use exceed design capacity) Good
- Safety (alarms, detector, security, sprinkler, extinguishers, etc.): The facilities are to code.
- Communications (including signage): Signage is in place.
- Accessibility (ADA): This is a fully accessible facility.
- Mechanical (fixed or built-in) (examples might include vehicle hoists, elevators, cranes, delivery systems for fuel island): Good
- Fuel, fluid, or chemical storage: New vehicle wash has capacity for small and large vehicles. Recycling of water is excellent. Storage for chemicals is also excellent.

**-Needs: New hot water heater, renovation of Kitchens and bathrooms facilities.**

**2. Administration: An additional Administration Building was just constructed completed 11/2010. It will be LEED Certified.**

- Heating, ventilation, and air conditioning systems (HVAC):
- Roof: New
- Structure (walls, floors, windows, and foundation): New
- Electrical/lighting: New
- Parking/driving surfaces: Good
- Water/sewer: All new
- Functional capacity (does the current use exceed design capacity): All adequate with space to grow
- Safety (alarms, detector, security, sprinkler, extinguishers, etc.): There is no surveillance equipment. Doors are locked for the same building serves Vanpool driver, fixed routes bus staff, human resources and finance. There have been thefts due to public access during hours when most staff are at home. For example dispatchers are in the building alone at 4:00 a.m.
- Communications (including signage): New facility with older equipment mixed with new as needed.
- Accessibility (ADA): The building is fully accessible.
- Mechanical (fixed or built-in) (examples might include vehicle hoists, elevators, cranes, delivery systems for fuel island): New
- Fuel, fluid, or chemical storage: Not Applicable

**-No Needs**

**3. Operations Building was renovated in 2011 including staff kitchen, lockers, lounge areas and office space. Dispatch and information centers established for drivers:**

Heating, ventilation, and air conditioning systems: HVAC LEED Certified

Roof: New

Structure (walls, floors, windows, and foundation): Renovated

Electrical/lighting: New

Parking/driving surfaces Good, New

Water/sewer: All new

Functional capacity (does the current use exceed design capacity): All adequate with space to grow

Safety: (alarms, detector, security, sprinkler, extinguishers, etc.) There is no surveillance equipment. Doors are locked for the same building serves Vanpool driver, fixed routes bus staff, human resources and finance. There have been thefts due to public access during hours when most staff are at home. For example dispatchers are in the building alone at 4:00 a.m.

Communications (including signage): New facility with older equipment mixed with new as needed.

Accessibility (ADA): The building is fully accessible.

Mechanical (fixed or built-in): Elevator New

Fuel, fluid, or chemical storage: Not Applicable

**4. Description: Ed Frost Transit Center 17 N. Huntington, Kennewick, WA 2.86 Acres, parking for 130 cars, 10 bus bays, 6600 Sq.Ft. of service island.**

Heating, ventilation, and air conditioning systems (HVAC) : No A/C heat only.

Roof: The roof is over 10 years old.

Structure (walls, floors, windows, and foundation): In good repair

Electrical/lighting: Poorly lit, needs up-grading including the electrical system.

Parking/driving surfaces (includes track system in rail yard: **Needs repaving and striping**

Pedestrian access: Good

Water/sewer: Good

Functional capacity (does the current use exceed design capacity): Good

Safety (alarms, detector, security, sprinkler, extinguishers, etc.): Good

Communications (including signage): New signage is needed.

Accessibility (ADA): Good

Mechanical (fixed or built-in) (examples might include vehicle hoists, elevators, cranes, delivery systems for fuel island): N/A

Fuel, fluid, or chemical storage: N/A

**Needs paving striping and increased security.**

**5. Description: Knight Street Transit Center 1010 Knight Street, Richland, WA 1.61 Acres with parking for 47 cars, 10 bus bays, and a service island of 8160, square feet.**

Heating, ventilation, and air conditioning systems (HVAC). NA

Roof: Shelters need replacement

Structure (walls, floors, windows, and foundation): In good repair

Electrical/lighting: Poorly lit, needs up-grading including the electrical system.

Parking/driving surfaces (includes track system in rail yard): **Needs Repaving and striping**

Pedestrian access: Good

Water/sewer: Good

Functional capacity (does the current use exceed design capacity): Good

Safety (alarms, detector, security, sprinkler, extinguishers, etc.): Good

Communications (including signage): New signage is needed.

Accessibility (ADA): Compliant

Mechanical (fixed or built-in) (examples might include vehicle hoists, elevators, cranes, delivery systems for fuel island): N/A

Fuel, fluid, or chemical storage: N/A

**Needs paving and striping and increased security**

**6. Description:** Pasco Transit Center; 719 N 22<sup>nd</sup> Street, Pasco, WA 1.86 Acres with parking for 50 cars, 11 bus bays and a service island of 7760 square feet

Heating, ventilation, and air conditioning systems (HVAC): N/A.

Roof: Shelters need replacement

Structure (walls, floors, windows, and foundation): In good repair

Electrical/lighting: Poorly lit, needs up-grading including the electrical system.

Parking/driving surfaces (includes track system in rail yard): **Needs repaving and striping**

Pedestrian access: ADA Compliant

Water/sewer: Good

Functional capacity (does the current use exceed design capacity): Good

Safety (alarms, detector, security, sprinkler, extinguishers, etc.): Good

Communications (including signage): New signage is needed.

Accessibility (ADA): Compliant

Mechanical (fixed or built-in) (examples might include vehicle hoists, elevators, cranes, delivery systems for fuel island): N/A

Fuel, fluid, or chemical storage: N/A

**Needs paving, striping and increased security**

**7. Description:** Richland Wye Park and Ride, has 3.3 acres with 250 parking spaces, No bus service within, but adjacent.

Heating, ventilation, and air conditioning systems (HVAC): NA

Roof: NA

Structure (walls, floors, windows, and foundation): NA

Electrical/lighting: Well lit

Parking/driving surfaces: Good

Pedestrian access: Good

Water/sewer: Bio Swale, no plumbing

Functional capacity (does the current use exceed design capacity): 80% full on weekdays

Safety (alarms, detector, security, sprinkler, extinguishers, etc.): NA

Communications (including signage): N/A

Accessibility (ADA): Compliant

Mechanical (fixed or built-in): N/A

Fuel, fluid, or chemical storage: N/A

**8. Description:** 3 Rivers Transit Center Kennewick has 2.8 Acres with parking for 20 cars, 10 bus bays a 7700 Sq. Ft. service island and a 3000 Sq. Ft. Customer Service Center.

**No major repairs needed at this time.**

Heating, ventilation, and air conditioning systems (HVAC): Good

Roof: Good

Structure (walls, floors, windows, and foundation): In good repair

Electrical/lighting: Good

Parking/driving surfaces (includes track system in rail yard): **Repaving needed and striping.**

Pedestrian access: Good

Water/sewer: Good

Functional capacity (does the current use exceed design capacity): Good

Safety (alarms, detector, security, sprinkler, extinguishers, etc.): Good

Communications (including signage): Good

Accessibility (ADA): Good

Mechanical (fixed or built-in) (examples might include vehicle hoists, elevators, cranes, delivery systems for fuel island): N/A

Fuel, fluid, or chemical storage: NA

**Needs increased security.**
